

★ 2010 IBEX INNOVATION
AWARD NOMINEE ★
SURE SEAL™

★ **Greatly improves the form, fit and function of the canvas-to-windshield link!**

- Utilizes the “snap track” found on any Taylor Made Systems windshield.
- Rubber SureSeal™ is sewn into the bottom edge of the canvas and simply pressed-in.
- Delivers a seamless relationship between canvas & windshield.
- Provides a stronger, more water-proof connection than traditional single-point snaps.

★ **Dramatically improves appearance!**

- No fasteners left behind to detract from the aesthetics of the windshield.
- Unbroken seal presents a smooth edge, eliminating “scalloping” of snaps.

★ **Benefits manufacturer and consumer alike!**

- Time consuming snap alignment no longer necessary for the manufacturer.
- After a day on the water, boaters simply start the SureSeal™ at the edge of the windshield and run a finger along it to securely install the canvas top... much, much quicker & easier than snaps!
- Replacement parts will fit right out of the box.

**7 MORE PATENTED CANVAS
INNOVATIONS**

★ **Fit Strip, Edge Clip, Eclipse Shade System, Vadney Snap Groove, ATS Track System, M3 Canvas Clip and Versa Snap!**

STATE-OF-THE-ART PRODUCTION

- ★ **The latest production equipment available.**
All sewing machines, dielectric welders and bending machines utilize the latest technology.
- ★ **5 state of the art CNC fabric cutters** allowing consistent accuracy in the cutting process.
- ★ **Barcode system for all canvas products.**
Plant supervisors are able to track how their work station products are flowing through the plant, and are able to also track the performance of operators within each work station.
- ★ **"Onboard Program"** which encompasses not only the tracking system discussed above but a company wide quality system that is accessible and visible at every level, from every employee, line supervisor and executive manager.
- ★ **Consistency** so the product fits the same every time. Every part has an engineered drawing for the sewer and is inspected for accuracy.
- ★ **Lead times** are one to two weeks depending on ordering method and forecasting.
- ★ **Significantly reduce canvas inventory** to a number of our customers and we are able to supply to a specific boat hull number.
- ★ **Warranty:** Recently developed a repair & return department to expedite within 48 hours any items that need to be returned for warranty or rework.
- ★ **Clear identification labels with:** Part number, date of manufacture, hull number identification, sales order number, model number, barcode tracking system.
- ★ **Every piece** of Ameritex canvas is inspected and packaged or crated with care for proper shipping.
- ★ **95% On-time delivery record.**

TOP-OF-THE-LINE MATERIALS

- ★ **Frames**
 - Self centering snap in frame and canvas.
 - Collapsible for quick folding & storing.
 - Stainless tubing: 16/18-gauge, 316 alloy.
 - Aluminum tubing: 7/8" and 1 1/4".
 - Eye ends completely knurled around tubing.
 - Stainless steel jaw slides riveted to frame.
- ★ **Fittings**
 - Proprietary **rattle-free** and **quick-release** fittings.
 - All fittings & fasteners are 316 alloy stainless.
 - 75% of fittings are designed by Ameritex.
 - All fittings designed to perform under extreme conditions.
- ★ **Fabrics**
 - Seamark
 - Sunbrella
 - Recasens
 - Surlast
 - Vista
 - 40 Ga. Glass
 - Lexan
 - Strata glass
 - others optional
 - Gore Tex brand **Tenara** thread is used on select cruiser canvas as an option
- ★ **With select materials and dielectric welding, Ameritex is the only supplier of a true WATERPROOF top!**

HIGHLY ENGINEERED

- ★ **Key engineering staff started in the custom canvas industry** working with dealers and individual customers understanding the needs of the end user.
- ★ **7 canvas design engineers** with a complete support staff in Bradenton, Florida.
- ★ **Digitize** and electronically store all patterns.
- ★ **2D/3D CAD software** is utilized for quote generation, pattern checking, cut file generation and nesting.

Ameritex Fabric Systems & Taylor Made have now joined forces. Combined these companies have over 150 years of experience supplying fabric enclosures to the Marine Industry!
